Peak Agenda Management

Streamlined, paperless agenda creation, approval and publishing

Peak Agenda Management allows staff to easily manage the agenda creation process from start to finish without the paper shuffling. Draft meeting agendas within configurable templates and submit through customized workflows to the correct departments, meeting bodies, and users. Peak's paperless integration prevents multiple versions of agendas getting shuffled around between different members - which often ends with inefficient use of meeting time spent catching up on the right documents.

Automated emails alert users that new items are up for review, and the intuitive calendar view makes it easy to manage one-time and recurring meetings. Electronically review, add and collaborate on agenda items, including attaching supporting documents and materials as needed. Once approved, agenda packets are generated into a single PDF for efficient online publishing or integration with Granicus' in-meeting and post-meeting legislative tools.
