

OneMeeting

Meeting and Agenda Management Solution

“ We needed a product that our users embrace and find efficient, where they don’t need to call IT for support. Your product nailed that. The way you guys built it, you guys knew how the clerks think...I felt that we had a light at the end of the tunnel when we found you.”

— John Lin, IT Manager, Ventura County, CA

OneMeeting provides a comprehensive, modern, and cloud-based platform, built from the ground up with one purpose - solving governments' public meeting challenges.

Save time and promote transparency by managing your entire public meeting process all from one single platform.

Agenda Automation

Incomplete agenda item submissions are a thing of the past with custom forms that ensure you receive all the information, every time. Collaborate on documents in Office 365 to eliminate versioning headaches and route items with custom, complex workflows to ensure that deadlines are met without the last minute scramble. Make sure agenda priorities stay top of mind with Agenda Forecast.

Meeting Management

Meeting management has never been easier with a single screen to record motions and minutes, as well as the speaker list and timer, while allowing elected officials to vote digitally for both in person and virtual meetings. Quick motion shortcuts and block voting capabilities maximize meeting efficiency.

Video Streaming

Get residents involved in the democratic process with live stream videos and on-demand recordings of public meetings. Choose from a self-managed system or enjoy a full-service video production solution that requires no staff involvement.

Pre-Meeting

- Create and manage as many meeting types as you need
- Customizable forms ensure complete agenda submissions
- Complex workflows truly automate the approval process
- Easily reschedule items and adjust your agenda
- Track upcoming agenda items and priorities with Agenda Forecast

During-Meeting

- Record motions, minutes, actions, and notes on an item
- Manage speaker list and timer
- Quick motion shortcuts and block voting maximize meeting efficiency
- Elected officials can vote digitally in-person and in hybrid meetings
- Involve residents with Request to Speak & Public Comment
- Engage your public with a video streaming solution designed especially for communities like you

Post-Meeting

- Update meeting minutes and information immediately
- Generate comprehensive reports
- Full text search capability for items and supporting materials
- Indexed, HD video with multi-bit rate eliminates buffering, and multidestination streaming delivers video to social media, PEG channels, Roku, web, and more
- Closed captioning available for video
